Year 2 Incursion

Last Friday, the Year 2 students participated in an incursion called ‘The Body Investigators’. The students were set a mission to investigate an unhealthy body. They were sent into Bazza’s unhealthy body to investigate the impact his unhealthy lifestyle has on his internal organs. As ‘Full Body Investigators’ students became brain neurons, red and white blood cells, oxygen and gastric juices as they role played different body systems. Students explored the impact of diet, physical activity and sleep on the body’s performance. We had so much fun using role play to pretend to be different body systems and adopting their features and functions.
